

A Snapshot of Proudfoot in...

Building Materials

We are proud to have supported the transformation initiatives of these building materials leaders...

What if you could...

- Increase shareholder value, engage your people in positive transformation, remove complexity and standardize all your operational sites, while reducing your cash cost by 5€ - 10€ per ton?
- Leverage the experience of 200+ engagements in 900 locations worldwide, to implement the next-generation operating model across your value chain?
- Increase your Sales by Commercial Excellence
- Implement a leaner, more agile organization and footprint which puts you ahead of your competitors?
- Increase shareholder value, engage your people in positive transformation, achieve record production at optimal operating cost, and do it safely?
- Synthesize these assets in a way that equips you with a clear roadmap for digital transformation and prepares you for the technology age?

...With Proudfoot, you can.

Within Building Materials, Proudfoot has realized over US \$1 billion in benefits for our clients through our most recent assignments, and typically achieves an ROI of between 4 and 10 times the cost of our programs. We have completed thousands of successful transformation projects over 72 years and our engagements our often cost/benefit neutral before completion.

 **8%-10%** Improved return on working capital

 **20-30%** Reduced Cash Cost per tonne or M3 (fixed & variable)

 **15-20%** Improved overall productivity across the supply chain

 **5%-10%** Reduced power & energy costs
