## Pharmaceuticals

### What if you could...

- Increase plant efficiency and productivity at the same time?
- Install preventive and predictive maintenance systems in your plants?
- Install "early warning systems" to alert your company to change and allow your team to react more quickly?
- Integrate a new acquisition without damaging its existing customer relationships or losing the management systems, expertise, and business processes that made the acquisition successful in the first place?

### Historical results achieved

	<b>32%</b>	Productivity improvement
	<b>30%</b>	Improvement in throughput
	<b>37%</b>	Reduction in downtime
	<b>\$5.5m</b>	Reduction in scrap costs
	<b>15%</b>	Improved overall productivity
	<b>15%</b>	Reduced energy costs
